HIS HEAD CRUSHED.

Charles Rehkopf's Horrible Death Under an Elevator.

Charles Rehkopf, thirty-seven years old, of 37 Bartlett street, Brooklyn, chief engineer in James Wallace & Son's brewery, at 394 Cherry street, met a most horrible death at the brewery

at 10.30 o'clock this morning.
Rehkopf's head was caught between a descending elevator and a guard rail on the first floor. His head was crushed to a pulp and nearly torn from his body. Death was instantaneous.

The engineer had been on an errand to the first floor. He was waiting for the elevator, in charge of Nicholas Stroube, which was coming down from one of the upper floors. He rested his chin on the guardrail and looked down the elevator shaft.

An instant later Stroube, the elevator man, started his elevator dawn from the second floor.

man, started his elevator dawn from the second floor.

As is the custom in the brewery, he shouted "Look out!" but Rehkoof, apparently, did not hear him.

Stroube heard a crunching sound, and immediately stopped the elevator, which had not been going very rapidly.

The body could not be removed until the elevator hall been hoisted.

I kehkopf's lower havbone had been literally driven through his neck, and his skull crushed in several places. An ambulance surgeon pronounced him dead on arrival.

Mr. Wallace, of the brewery, said he could not understand why the engineer, who was a man of considerable experience, could have been so careless.

Rehkopf leaves a widow and several children. He was a good engineer and had been in the employ of the brewery for about two years.

COXEY'S OWN MEN GRUMBLING.

They Are Delayed in a Unwholesome Camp at Frederick, Md.

(By Associated Frens.) WASHINGTON, April 25.-The strong hand of the National Government at last has been extended to check in its mad career the lawless mob of Coxeyits which has seized upon a train upon the Northern Pacific Railroad at Butte, Mon., and started East-ward. The Government no longer will wait upon the tardy movements of State

This morning Col. Swayne, who is ir command of the Department of Dakota, in the absence in Europe of Gen. Merritt, was instructed by telegraph to us the United States troops to intercept the mob and restore the railroad's prop

erty. This action follows close upon Attorney-General Olney's telegram of instruction to United States Marshal Bede at St Paul. There is no legal difficulty in the way of governmental action at this stage, as the railroad property is now in the hands of the United States courts, acting through a receiver, and the President may move at once upon the representations of the United States judicial officers. There are sufficient forces of United merck, on the line eastward of the train seizers, and it is expected they will be stopped at one of these points.

It can no longer be denied that the pecullar movement now in progress throughout the West has aroused the apprehension of the National authori ies. As long as the numerous "armies" and other organizations conducted them selves in a peaceable and law-abiding fashion, there was no disposition to in terfere with them. But as the character of the agitators is revealed by such acts as the selzure of trains and other lawless doings, it is made evident to the officers of the Government that they no longer can stop at a policy of

Further trespass upon vested rights and the good order of the community will be severely repressed probably whenever, owing to violation of United States laws, the National Government finds itself justified in acting.

We are now reduced to the level of a mob. Militia may be called out at any moment to stop our progress. This gives them an excuse to regard us as lawless. "I would give my life to have this day's work undone. There is no excuse for the action of those Montana men. I don't know them and have not been in communication with them."

COXEY'S OWN ARE FRETTING.

Delayed in an Unwholesome Camp at Frederick, Md.

(By Associated Press.) FREDERICK, Md., April 25.-The loxey army is stopping for a weary lay in Camp La Fayette. It is the most dreary camp that has been pitched since leaving Cumberland, being located on the baseball common, without a tree or the baseball common, without a tree or shade of any sort. The waxins are huddled together, camp refuse is scattered about, and the ground has been tramped into mud-puddles by the crowds of men and horses. The weather has turned warm, and the hot sun beating down on the unprotected camp already has begun to raise the stench that accompanies a large gathering of men without adequate sanitary arrangements. The men are impatient of the delay and are fretting to be on the move.

quate sanitary arrangements. The men are impatient of the delay and are fretting to be on the move.

Why the stop has been made no one can tell, Browne and Coxey simply saying there is plenty of time to reach Rockville on Saturday. It has been decided to accept the offer of H. P. Waggeman for a camp at Woodley Park, both Browne and Coxey being well pleased with the arrangement.

Most of the Commonwealers are resting in camp, only a few of them appearing in town. So far they have heeded the temperance lecture that Browne inserted in his general order this morning. It said in part:

"Refrain from begging, either on the street or from private houses. Refrain from filling up on bad whiskey. A little good whiskey taken in moderation won't hurt you, but any one of you drinking immoderately may consider himself discharged from the Commonweal."

When he had finished reading the order to some of the correspondents Hrowne said: "It took a good deal of moral courage to say that, but I believe I am right, and I will handle my men on that basis."

the Gould estate, but these gentlement would not consider his offer of \$200 for the house.

Now that the Coxeyite Industrial armies are coming nearer and nearer, Superintendent of Police Byrnes is beginning to express himself about them. He does not, he says, think as much of them as he does about them.

"They are a menace to the well-being of the whole country." he said, "and a law ought to be speedlly enacted making it a crime for any such great aggregations or mobs to concentrate in any one city. In fact, there should be a law prohibiting them from marching through the country at all.

"Such a movement is entirely un-American, and I daresay that not more than 2 per cent of the people engaged in it are natives of the soil. They are probably nearly all foreigners or tramps, and too lazy to work."

The theft was discovered through an accident. The family last week had begun preparations for a grand reception at their home, and in making an inventory of the silverware discovered a large number of the largest and heaviest pieces of plate missing.
